

MARBLING DESCRIPTIONS & ILLUSTRATIONS

Quality Grade Description

At right appear the six most commonly found marbling degrees available to retail and foodservice operators.

The descriptions apply to beef carcasses from animals of approximately 9 to 30 months of age. The U.S. Department of Agriculture designates this age animal to be "A" maturity in its official grading standards.

Ninety-five percent or more of the officially graded beef that is made available to retail and foodservice operators is of "A" maturity.

Marbling Descriptions

The degree of marbling illustrates the minimum amount of marbling necessary to qualify for the following U.S. quality grades.

Though not officially graded except as U.S. Prime or U.S. Choice, the degree of marbling photographs do identify the points within each quality grade level.

Further explanations as to the meaning of the quality grading photographs or the criteria may be obtained from the U.S. Department of Agriculture, Agriculture Marketing Service, Livestock & Seed Division, either the Standardization Branch or the Meat Grading and Certification Branch, or from a member of the North American Meat Processors Association.

beefiswhatsfordinner.com

Since marbling is such an important factor in grading beef quality, the following pictures illustrate the lower limits of six marbling degrees: Moderately Abundant, Slightly Abundant, Moderate, Modest, Small, and Slight.

It should be noted that there are ten degrees of marbling referred to in the Official United States Standards for Grades of Carcass Beef. These color photographs have been developed to assist government, industry, and academia in the proper application of official grade standards.

MODERATELY ABUNDANT

- ✓ The minimum marbling degree necessary for average U.S. Prime

SLIGHTLY ABUNDANT

- ✓ The minimum marbling degree necessary for low U.S. Prime

MODERATE

- ✓ The minimum marbling degree necessary for high U.S. Choice

MODEST

- ✓ The minimum marbling degree necessary for average U.S. Choice

SMALL

- ✓ The minimum marbling degree necessary for low U.S. Choice

SLIGHT

- ✓ The minimum marbling degree necessary for low U.S. Select

The above illustrations are reduced reproductions of the Official USDA Marbling Photographs prepared for the U.S. Department of Agriculture by and available from the National Cattleman's Beef Association.
